

Contemporary Integrative Dry Needling - pain management

Presented by: Dr. Yun-tao Ma and Mila Ma (assistant)

March 2-4, 2012

Introduction

Dr. Yun-tao Ma, PhD, world-renowned educator, writer, researcher, founder of the American Dry Needling Institute.

- 40 years of clinical needling experience
- 30 years of research (neuroscience and pain management)
- Dr. Ma's textbooks published by Elsevier, USA 2005 and 2010
- Department of Experimental Therapeutics University of Maryland, University of Iowa
- Visiting Professor, Medical Faculty, Paris IX (Orsay), University, France
- As a key-speaker Dr. Ma presented his Integrative System at International Symposiums in London, Barcelona, Berlin, Paris, Sao Paulo, Frankfurt, Prague, Washington DC, Thessaloniki; at USA Medical Schools

Course description

Integrative Dry Needling, Orthopedic Approach™ is a contemporary dry needling therapy developed by Dr Yun-tao Ma (2005, 2010).

- Based on the works of Dr Janet Travell (1982, 1992), Dr Chan Gunn (1978), clinical evidence, evidence-based research and Dr Ma's own 40 years of clinical and research experience and neuroscience training
- Due to Dr Ma's extensive background in neuroscience, pain management and needling practice and research, he has been able both to study and assess the effectiveness of different types of dry needling, such as trigger point dry needling (TDN) – as used by Travel and Simons; intramuscular stimulation manual therapy and the spinal segmental sensitivity (SSS) approach (Dr Gunn's IMS approach). Dr Ma has been able to synthesize all the different types of dry needling into the unified contemporary system known as Integrative Dry Needling, Orthopedic Approach™
- Whole body will be covered (upper and lower extremity)
- **Includes a free lifetime membership with Dr Ma**
- **No prerequisites** required, may have pre-course readings
- Virtually pain-free dry needling techniques
- Clinical procedures for resolving soft tissue dysfunction and other musculoskeletal dysfunction and treatment for all types of myofascial pain

When:	Friday March 2, 2011: 1:00 p.m. – 8:00 p.m. Saturday, March 3, 2011 9:00 a.m. to 6:00 p.m. Sunday March 4, 2011 8:00 a.m. to 4:00 p.m.
